

# Technical Documentation

## Abbreviations

AI - Artificial Intelligence

API - Application Programming Interface

CPU - Central Processing Unit

HTML - HyperText Markup Language

HTTP - HyperText Transfer Protocol

RAM - Random Access Memory

SSD - Solid State Drive

JSON - JavaScript Object Notation

## Introduction

This document provides an overview of modern computing systems, focusing on architecture, data handling,

and network protocols. It includes definitions, technical specifications, and operational guidelines.

## System Overview

The system is composed of multiple hardware and software components, operating together to provide

efficient data processing, storage, and retrieval capabilities across distributed environments.
